## INSTRUCCIONES DE MONTAJE

- \* Para comenzar debes pegar la base en un cartón duro de sus mismo tamaño.
- \* Antes de doblar conviene marcar las líneas con la punta de unas tijeras, sin apretar demasiado.
- \* Si vas siguiendo el orden de la numeración te será más fácil el montaje.
- \* Puedes construirte tus propias herramientas con palillos, alambres, pinzas del pelo, etc.
- \* Las flechas  indican como pegar las piezas.
- \* Este signo  señala una línea por donde hay que doblar.
- \* Este signo  nos dice que debemos calar (recortar por dentro). Y este otro  dar un corte.
- \* Una vez terminada la maqueta debes recortar y pegar debajo de la base el recuadro con el texto.
